Bring the Bookstore to Your Living Room

It's exciting to browse new titles, but it's not always easy or convenient to get to your favorite bookstore. Finding the time, without feeling rushed, can be tricky. And in a store aisle there's no place to set your mug.

Home, however, is a great place to browse. There's no closing time. You can sit back, relax, and prop up your socked feet whenever it's convenient for you. Home is also a great place to *shop* for the best selection of spiritual resources you can find. And you don't have to dress up to go to your sofa.

The *Good Books* catalog is a tool that allows you to sit and browse the shelves of a Cokesbury store or the aisles of the Cokesbury.com warehouse for as long as you like, whenever you like—with your mug by your side.

Browse Before You Buy

Search the various sections of the *Good Books* catalog and use our comprehensive index at the back to find the latest resources available for building up and equipping clergy and laity for all kinds of ministries.

Use *Good Books* to plan your purchase before you shop. And when you are ready, Cokesbury makes ordering easy and convenient for you.
