

# BEDTIME PRAYERS FOR CHILDREN AND ELEPHANTS

## Nighty Night, Noah

by Molly Schaar Idle

This unique enchanting story begins as the sun sets on Noah's ark, the waves rock the boat, and darkness falls. It's time for everyone to go to sleep.

Early elementary children learn the alphabet, and learn the names of different kinds of animals as Noah tucks each into bed.

Children see the animals going through the same bedtime rituals that they themselves go through with their parents—brushing teeth, asking for another drink of water, and saying bedtime prayers.

For children up to age 6.
