

BRINGING
HEALTH CARE
HOME

OUR SPECIAL HOME HEALTH CARE SERVICE

Collin Home Health Care is a full service health care agency dedicated to providing the highest quality of in-home medical care in your community.

Collin Home Health Care is an affiliate agency of Associated Health Resources, Inc. The AHRI network of Medicare home health agencies brings professional medical examination, therapy, treatment, and personal assistance into the homes of

thousands of our clients, in cooperation with their doctors.

Collin Home Health clients enjoy the convenience, peace of mind, comfort, security, privacy, and dignity of in-home care. We help our clients restore and maintain their health, recover from shorter hospital stays, and avoid nursing homes.

As your local AHRI home health care agency, we are compensated directly, and usually completely, by Medicare. Our services are provided at no cost to most of our clients who qualify for Medicare reimbursement.

COLLIN HOME HEALTH CARE ADVANTAGES

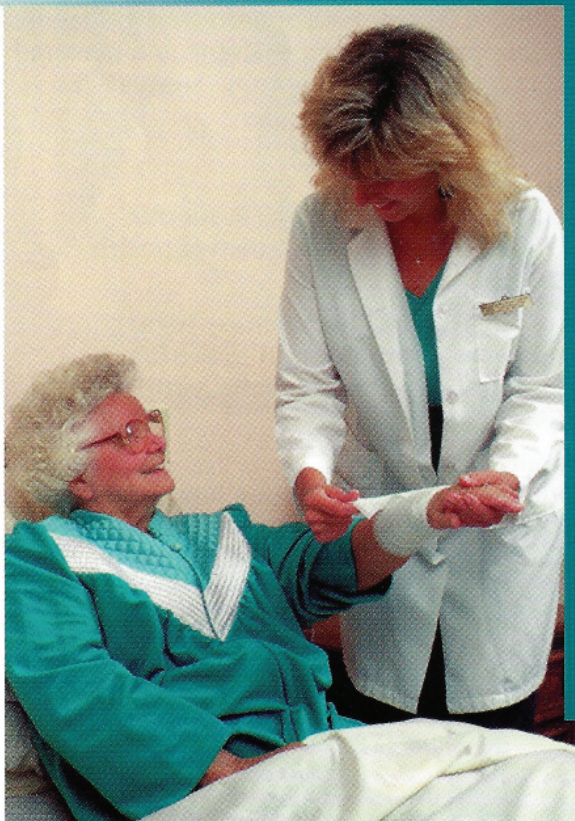

Collin Home Health Care clients enjoy the many advantages of our medical monitoring, diagnostic examination, treatment, therapy, and personal assistance in their own homes. Some of the advantages of home care are:

- **Convenience**
Transportation is a problem for our homebound clients. We deliver health care.
- **Comfort**
Our clients continue to enjoy the security and peace of mind found in the familiar surroundings of home while getting medical attention.
- **Family**
Our clients can stay among family and friends while receiving needed medical care.

COLLIN HOME HEALTH CARE ADVANTAGES

- **Independence**
Home care helps people avoid dependence or helplessness. Our assistance often enables seniors to continue leading independent normal lives.
- **Alternatives**
Home health care can postpone or eliminate the need for a nursing home stay.
- **Faster Recovery**
Surveys have shown that patient health improves quicker in the less stressful environment of home than in any other setting.
- **Longevity**
Government studies have shown that home health care clients live longer and report a greater quality of life.
- **Privacy**
Personal privacy is more difficult to maintain in a public health facility. The clients of Collin Home Health Care retain their dignity.

- **Cost-Efficiency**
By a comparison of treatment for the same health problems, home care costs only one-tenth as much as hospitalization and only one fourth as much as nursing home care. And, through new technological advances, almost any diagnostic service or treatment available in a hospital can now be performed more economically in the home.

- **Medicare Approval**
All AHRI home health agency services are approved and reimbursed by Medicare, in recognition of the effectiveness and economic advantages of home health care.
- **Availability**
All AHRI home health services are available to our clients 24 hours a day, 7 days a week. Help is just a phone call away. We are always ready to bring health care home.

SIMPLE AND EASY

Setting up and maintaining home care from Collin Home Health Care is simple and easy. We handle all of the paperwork for you.

The AHRI administrative staff possesses the greatest expertise in Medicare coverage criteria. Our agencies handle all documentation requirements and process our billings directly to Medicare. We eliminate form duplication, and cut your paperwork to a minimum.

Our efficient and thorough management and streamlining of the paperwork process reduces this burden for our physicians and their patients, allowing them to relax, concentrate on health improvement, and enjoy living more.

PHYSICIAN DIRECTED

Physicians direct all of the services which we provide in the home. Many of our clients are initially referred to us by their doctors.

Our agencies never initiate service for a client without prior approval by the attending physician. After consultation with the Collin Home Health Care medical staff, a client's doctor will prescribe an ongoing program for medical monitoring, treatment, or therapy.

Thereafter, our skilled nursing professionals maintain regular and frequent contact with client physicians to provide updates and receive additional instructions. We all work as a team for the sake of our client's continued health and well-being.

HOME CARE FROM THE HEART

At Collin Home Health Care, our employees look at their work as a special calling, rather than merely a job. We feel that we are fulfilling a noble purpose through a ministry of healing and service. Our compassion, caring, and commitment comes from the heart.

We see our clients as special people. We view our clients as we would our own parents and grandparents. We offer a unique kind of service — home care from the heart.

CALL US TO FIND OUT MORE

Our professionals are ready and available to answer your questions and give you more information on our services. Call now, or anytime, 24 hours a day, 7 days a week for referral information.

You undoubtedly know a patient, friend, neighbor, or relative who may need and benefit from home health care. Feel free to call us to discuss their needs.

Our first phone consultation is followed by an in-home interview evaluation, conducted by one of our nurses. This interview helps us determine a person's needs and eligibility for Medicare-paid services.

If a prospective client qualifies for home care, we will then conduct a physician consultation to obtain instructions and approval before proceeding with a home health care program.

BRINGING HEALTH CARE HOME

Home health care from an AHRI affiliate agency is the most convenient, comfortable, and economical way to receive regular medical monitoring, diagnosis, therapy, and treatment.

Our services are often paid entirely by Medicare. We make everything simple and easy for our clients and our physicians.

Someone you know needs our special care. Call now for more information. We are waiting for your call, ready to be of service to you today.
