

We Don't Chase Tornadoes (We Follow Them)

In response to yesterday's tornado strikes, we need trained volunteers to assist with multiple types of victim relief tasks.

Specifically we need volunteers with training in the following categories -

- **Mobile Feeding Volunteers**
from Red Cross vehicles in the stricken areas
- **Trained Disaster Assessment Volunteers**
- **Trained Family Services Volunteers**
for Client Assistance Casework
- **Shelter Operations Volunteers**
for the possibility that tornado victims may choose shelter care

If you can assist us, please e-mail us to provide a phone number where you can be easily reached.

Simply hit your reply button for the e-mail address above, or type in Bendak@usa.redcross.org.

We will attempt to reach those of who reply to us first, to fill our most urgent current needs.

Please do not be offended if we do not call you back right away. As you can imagine, we are multi-tasking right now.

Once we fill today's slots, we will be making call-backs to fill the trained volunteer staffing needs we will have for the days that follow.

Thank you for your quick response.
